Steril-Aire signs ITK Marine as a Value-Added Representative

Steril-Aire, a leading innovator of high performance ultraviolet-C ("UVC") for air and surface decontamination has added ITK Marine to bring UVC Solutions to the Ship building and repair market. Steril-Aire will assist ITK Marine to provide product engineering, retrofit solutions, and addressing IAQ through enhancing HVAC systems. Steril-Aire produces high energy germicidal UVC solutions that create a better and safer environment to live, work and breathe. With over 200 workers and subcontractors worldwide ITK Marine is positioned to actively engage Steril-Aire product installs to advance the human health condition.

"We are excited to have such a knowledgeable group representing us in such an important industry. ITK Marine will allow the shipping industry a one-stop shop for their UVC products, engineering design, support, and installation." stated Jeff Scheir. Senior Executive Director for Steril-Aire.

About ITK Marine

Founded in 2011 ITK Marine is a premier turn-key engineering services company to the marine industry. Operations are in 15 locations throughout the world. ITK Marine provides technical retrofits, inspection, commissioning, interior retrofits and HVAC upgrades. Services are provided to offshore vessels, cruise liners and ferries, cargo vessels, and offshore platforms.
